Dimensions
- Product dimension (WxDxH) inch: 29.8" x 26.8" x 21.5"
- Product weight (lb): 121lbs
- Weight incl. Packaging (lb): 132lbs
- Carton dimensions (WxDxH) inch: 34.7"x31.3"x25.3"

Loudspeakers
- Built-in speakers: 2

Accessories
- Optional accessories: Mounting brackets/ stands, Set up Remote RC2573GR, Clone box CLON99BK (wired), Wireless SmartLoader 22AV1120

Product highlights

Wireless Smart Loader™
Provides the ability to copy easy and wireless all programmming settings from one TV set into other TV sets in less then a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.

Total Program Control
Locks in commercial customized settings and features with a master TV set-up, significantly reducing installation time. Ensures uniformity across displays and prevents guests from altering pre-set formats.

SmartCard™ Expansion Slot
Permits OEM or 3rd party decoders and controllers to be installed inside the television for custom designed component integration. Eliminates the need for external set-top decoders, controllers, or data terminals. Integrates system for superior control applications. Allows expandability for future upgrades. Prepared for digital applications.

SmartPlug™ Interface
The Smartplug interface permits OEM or 3rd party decoders and controllers to interface with the TV.

Incredible Surround™
Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.
